

## Environmental Policy

Quality Austria Central Asia recognizes the importance of protecting the environment and maintaining a healthy and safe workplace for our employees, clients, suppliers, visitors, and the public. We are committed to implementing and improving a management system that covers our environmental performance.

Our key environmental objectives are as follows:

- Reduce the negative impact of our activities on the environment and prevent environmental hazards.
- Promote sustainable resource use and reduce waste, including minimizing energy consumption in all forms.
- Meet all legal and regulatory requirements related to environmental protection and health and safety.
- Continuously improve our environmental performance and strive for a zero-incident operation.
- Communicate with stakeholders both within and outside the organization about our environmental policies and practices.
- Review and report annually on our environmental performance.
- All employees will receive training and be encouraged to provide feedback on our performance. The directors and managers will be responsible for ensuring compliance with this policy, while all employees are responsible for minimizing environmental risks and following established procedures.

We are committed to make a positive environmental impact and promoting sustainability.
